

# LONG TERM ACCOMMODATION

Updated Oct 2025

Many first year students live in a Hall of Residence as this enables them to meet other students and grow accustomed to living in London. You may, however, want to live in private accommodation, which can either be in a flat or house, shared with others, or in a family home. Information of accommodation offered is compiled by Student Services and is kept updated throughout the year, accessible to registered students on [Learn](#).

Fees quoted here are the most up to date available at time of publishing. Please check if VAT is included. Often a VAT supplement is asked for on the first month's rent only. Consider deposits, admin fees, memberships and any fees for door keys that may apply. Details will be on the individual websites. All residences operate a no smoking policy within their buildings and is banned by law.

While every effort is made to ensure that the information given on these sheets is accurate, it must be emphasised that it could be subject to amendment, alteration or omission. Apply to hostels well in advance of the academic year starting. Most hostels take bookings from January and February for the following September, so you should enquire early.
